London-based, open to relocation

Summary

I'm Kaiwei — a AI first product designer who minds clients' business as her own. I wear many hats across product, visual, and brand — helping teams untangle complexity and turn it into clear, meaningful design.

Experience

OpenLoop - Product Designer

Aug 2025 – Present

White-label telehealth infrastructure

San Jose

Key Achievements

- Led the transformation of telehealth SaaS from internal infrastructure into a customer-facing platform, supporting 200+ customer launches within one week and increasing launch capacity by 400%.

Core Responsibilities

- Led 0-to-1 design for Launchpad, a platform that helps customers quickly launch telehealth brands from customer acquisition to end-to-end healthcare service delivery.
- Led design for operational platforms (Patient CRM, LaunchOps, Atlas), improving efficiency across patient operations, billing flows, and system governance by 40%.
- Established cross-product design standards and AI-assisted workflows, achieving ~80% reduction in new-brand launch time.

Caboodle - Product Designer

Jan 2025 – Aug 2025

B2B Product Design Studio

London

Key Achievements

- Drove value in a fast-paced agency setting through end-to-end design contributions for multiple B2B SaaS products.

Core Responsibilities

- Collaborated on designing an AI-integrated flow for **Hireable**'s CV Builder, which contributing to the product's \$1m funding potential.
- Synthesised 45 Microsoft Clarity user recordings to optimise a key **Fuze** widget — reduced dead clicks by 70% and improved quote request speed by 20%.
- Supported the design of **Fuze**'s white-label widget, tailored for five enterprise clients with distinct brand and UX requirements.

London Transport Museum - UX designer (research focused)

Dec 2022 – Mar 2025

Museum showcasing London's transport history

London

Key Achievements

- Supported the museum in developing a 5-year employability strategy for local youth and helped secure funding from both government and social sector sources.

Core Responsibilities

- Acted as a core research contributor in a two-year evaluation (2023–2024) of LTM's youth programmes, focusing on skill development among participants aged 18–26.
- Applied mixed-method research with 20+ participants to assess the effectiveness of 3 core initiatives. Findings showed a 75% increase in youth participation and a 46% rise in satisfaction among youth employees in 2024.
- Conducted live UX research at Skills Late, the annual event for Route into Work (200+ youth), which attracted DWP interest and laid the groundwork for a planned 2026 scale-up to 400+ attendees.

FoodCLUB - UX UI Designer

AI-powered food-sharing app

Nov 2023 – Apr 2024

London

Key Achievements

- Boosted content creators' satisfaction by 28% by redesigning and implementing innovative features and user flows for the Create function within the app.

Core Responsibilities

- Cross-functional collaboration with product managers, UX/UI teams, and developers to develop a food-themed social media iOS & Android app.
- Created high-fidelity wireframes and prototypes with detailed annotations to streamline and enhance cross-team communication efficiency.
- Conducted resource-efficient usability testing with 5 target users, applying moderated qualitative methods to identify key user pain points in existing feature *Create*.

Freelancing - Designer

Jun 2022– Present

Key Achievements

- Redesigned an accessible website for Disability Equals Ability, which helped the charity received government 1000£ sponsorship.
- Designed a user-centered website for London based **Ohisama Sushi Restaurant**, which optimised satisfaction among existing customers by 30% and boosted new customer retention rates by 45%.
- Built a unified design component library for **Wemanage**, a California-based hospitality SaaS platform, streamlining design standards across product lines and boosting development efficiency.
- Designed the book cover for **Leadership Reiki**, crafting a professional visual identity for a Reiki practitioner and executive coach targeting senior corporate audiences.

■ **Education**

University of the Arts London

Distinction Graduation

Master Of Illustration

Sep 2021–Dec 2022

Excelled in visual communication and research skills as the core of user-centered design.

National Taiwan University of Arts
